Seed Pricing Policy

UT IM 2010-044

- Z Updated June 2010 New policy regarding price structure
- Prices charged for permits planned for update on a more regular basis

Z Consistent with neighboring BLM states* and offices by utilizing a nationally posted minimum price list for seed

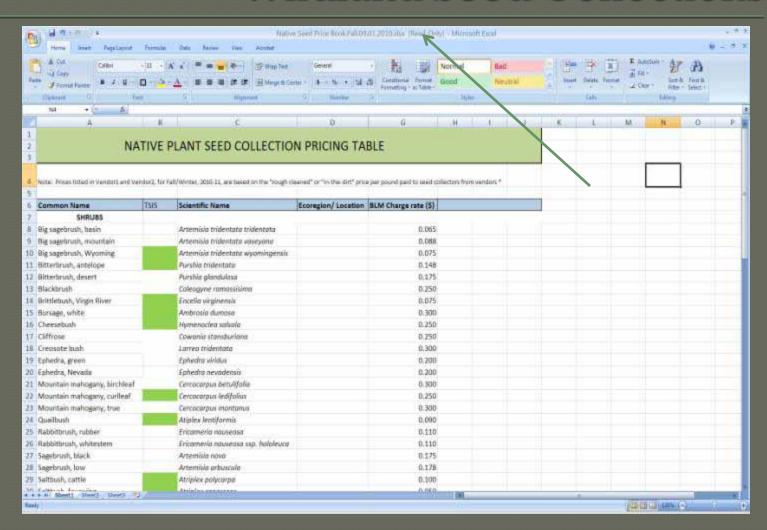

*Utah, Nevada, California, Idaho, Colorado, & Wyoming

Native Plant Seed Collection Pricing Table

Current BLM Policy for Permitting Wildland Seed Collections

Current BLM Policy for Permitting Wildland Seed Collections

Z Gives BLM offices easy access for up-todate pricing spreadsheet posted on internal website

Z Appraisal based on 10 percent of the wholesale price as queried and averaged from as many vendors as possible

Z A local FO may set a different price for any product when based on a local market appraisal and supported with appropriate documentation

^{*} Updates/revisions of policy are planned to better address issues of supply & demand, resource concerns and special stipulations and enforcement.
